## **Final Programme of 9th Alice and Albert Netter Days of European Society of Gynecology**

**Tallink Hotel Riga, Latvia**

**1-3 November 2018**

The Latvian Society of Gynecological Endocrinology is honored to organize this event in partnership with the European Society of Gynecology in Riga, Latvia.

The Scientific Program of the Meeting will be based on the aims of the ESG: the widening of the contacts between the specialties of medicine of the reproduction of the various European countries, the promotion and diffusion of the clinical and biological research.

The 9<sup>th</sup> Alice and Albert Netter Days of the European Gynecological Society offer a diverse and updated scientific program in the field of gynecology and gynecological endocrinology. The scientific program is focused mainly on the practical aspects of the problems encountered on a daily basis by doctors.

The theme of the meeting will be the life course approach to a woman's health from childhood to menopause. In this event we would like to give doctors and scientists from different countries an opportunity to discuss important questions to find common views about a woman's health.

We look forward to you taking active part in this meeting of a woman's health. Please, book the date in your diary now and we hope to see you in Riga in November 2018.
